Con más imágenes y emociones

The image displays two screenshots of the Teachable Machine interface, showing different emotion classification models.

Top Screenshot:

- Emotions:** Feliz, Triste, Sorprendido, Neutral, Miedo.
- Image Samples:** Each emotion has a set of image samples (e.g., 7215 for Feliz, 4830 for Triste).
- Training Panel:** Shows "Model Trained" status. Advanced settings include Epochs: 50, Batch Size: 16, and Learning Rate: 0.001.
- Preview Panel:** Shows a preview of the model's output for a given image. The output bar indicates the predicted emotion and its confidence score (e.g., Feliz: 20%, Triste: 20%, Sorpr...: 20%, Neutral: 20%, Miedo: 20%, disg...: 20%, Enoja...: 20%).

Bottom Screenshot:

- Emotions:** Neutral, Miedo, disgusto, Enojado.
- Image Samples:** Each emotion has a set of image samples (e.g., 4965 for Neutral, 4097 for Miedo).
- Training Panel:** Shows "Model Trained" status. Advanced settings include Epochs: 50, Batch Size: 16, and Learning Rate: 0.001.
- Preview Panel:** Shows a preview of the model's output for a given image. The output bar indicates the predicted emotion and its confidence score (e.g., Feliz: 20%, Triste: 20%, Sorpr...: 20%, Neutral: 20%, Miedo: 20%, disg...: 20%, Enoja...: 20%).
